

Oakworks Clinician Adjustable Lift-Assist Salon Top

Stock Photo - Options May Vary

FACTORY NEW

The Oakworks Clinician Adjustable Lift-Assist Salon Top is a manually adjustable spa table that eliminates the need for electricity. The Interlock leg extension system provides exceptional stability and uses a single adjustment knob with a reinforced T-nut and padded rubber grip for easy operation. The table features an open shelf for convenient storage of massage equipment and accessories.

The adjustable lift system offers multiple positioning options to accommodate client comfort needs. Four separate padded sections allow therapists to configure the table for various treatment applications. The design incorporates patented ergonomic features that improve therapist comfort during seated work positions.

This economical choice for spa and massage practices is available in two widths and can be upgraded with an optional cabinet featuring customizable door designs. The table is ETL listed and CE marked, with a 500-pound weight capacity and height range from 24 to 36 inches.
