Oakworks Optional Locking Casters

Stock Photo – Options May Vary

FACTORY NEW

Oakworks Optional Locking Casters: These Optional Locking Casters allow the Clinician to readily and easily move their table anywhere when needed. The high-quality casters allow for easy movement, making it simple to reposition tables and devices as needed.

Additionally, the locking feature ensures that the table stays securely in place once positioned, offering added safety and stability during use. Constructed with high-quality materials, Oakworks Locking Casters are durable and built to withstand the demands of a medical environment.

Furthermore, the addition of these locking casters can enhance workflow in busy medical environments, offering flexibility in space management while maintaining a high standard of patient and staff safety.
