

Oakworks Ultrasound Table Optional Detachable Arm Board

FACTORY NEW

The Oakworks Ultrasound Table Optional Detachable Arm Board is a versatile accessory designed to enhance positioning flexibility on Oakworks Ultrasound tables. This detachable arm board can be attached at any designated location on the table, allowing clinicians to customize patient positioning for a wide range of ultrasound procedures.

The arm board is compatible with any T-Rail attachable accessory, enabling seamless integration with existing table systems and equipment. Its modular design supports a variety of positioning configurations, making it suitable for different clinical applications and patient needs.

Available in 21 TerraTouch color options, the arm board can be ordered separately as an optional upgrade to any Oakworks Ultrasound table system.
