

Pedigo Black Patient Handle | P-3302-BLK

Stock Photo - Options May Vary

FACTORY NEW

The Pedigo P-3302-BLK Black Patient Handle is an adjustable handle designed for easy mobility and patient support. It features a mounting clamp for secure attachment to Pedigo IV stands and the P-1080-6 infusion pump stand. The ergonomic design ensures comfort and safety during patient transport.

This handle is available in multiple material options to meet different facility needs. Alternative versions include stainless steel (P-3301) and CuVerro Antimicrobial Copper Alloy (P-3303) for enhanced durability and infection control capabilities.
