FACTORY NEW

Pedigo P-2220 Elite Series Blanket Warmer. The Pedigo P-2220 Elite Series Blanket Warmer delivers dependable performance for busy medical environments. This single-chamber warmer heats blankets quickly and evenly. It uses an efficient, balanced heating system that lowers energy use and reduces heat loss.

Clinicians gain reliable warmth for patient comfort, and staff can manage temperatures with confidence. Furthermore, the cabinet supports Fahrenheit and Celsius settings for flexible operation. You control temperatures from 98º to 180ºF, which ensures ideal warmth for various clinical needs.

The cabinet also includes a dedicated warming shut-off system that prevents overheating without relying on electronic controls. As a result, your team maintains safety during every shift.
