

Pedigo Single ivNow® Modular Thermal Fluid Warmer | P-2301-A

Stock Photo - Options May Vary

FACTORY NEW

Pedigo Single ivNow® Modular Thermal Fluid Warmer: P-2301-A. Pedigo's ivNow modular fluid warmers provide warmed fluid at your fingertips, right when and where you need it. These small, convenient units offer flexibility, as you can place them in various combinations and environments to suit your needs.

Features Include: ivNow quickly warms and maintains safe intravenous and irrigation fluids temperatures. Additionally, the specially contoured warming surface cradles one (1) liter solution bag. Individual control controls the L.E.D. display and the cavity.

A sensor in the heating plate detects the presence of a bag and engages the heating mechanism to warm the fluid quickly.
