

Refurbished Beach Chair Shoulder Positioners

Stock Photo - Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Beach chair shoulder positioners from trusted manufacturers including Allen Medical, Steris/Amsco, Northstar, and Linvatec. Each unit undergoes detailed inspection and professional restoration to ensure top performance and safety in surgical procedures.

These shoulder positioners are designed for hospitals, surgery centers, and orthopedic practices performing shoulder and upper extremity procedures. The positioners fit a variety of surgical tables and support proper patient positioning during surgery.

All units are professionally inspected and tested to meet or exceed OEM standards. Refurbished equipment provides a cost-effective alternative to new equipment while maintaining quality and reliability for immediate use in surgical settings.
