

Replacement Stretcher Pad for Hausted 493 Fluoro-Track

Stock Photo - Options May Vary

FACTORY NEW

The VMR-SP-493FT is a replacement stretcher pad designed specifically for the Hausted 493 Fluoro-Track C-Arm Stretcher. Constructed from durable, easy-to-clean materials, this pad provides long-lasting performance and reliable protection in clinical environments.

The pad is engineered to ensure patient safety and comfort throughout fluoroscopic procedures. Its professional appearance complements the sterile environment of medical facilities while maintaining the functionality required for demanding healthcare applications.

This essential accessory is ideal for healthcare providers who need reliable replacement pads for their existing Hausted 493 Fluoro-Track stretchers.
