

Replacement Stretcher Pad for Stryker 1089 Stretcher

Stock Photo - Options May Vary

FACTORY NEW

The Stryker 1089 Replacement Pad is a 4-inch thick cushion designed to provide superior support and pressure relief for patients during transport or treatment. It features a resilient surface that resists bacteria, stains, and moisture, creating a cleaner and safer care environment while withstanding rigorous daily use.

Engineered for precise fit on compatible Stryker stretchers, the pad ensures reliable stability and maintains high performance and hygiene standards. The durable cover holds up to frequent cleaning and easy-to-clean materials support demanding medical environments.

The pad delivers lasting comfort and long-term reliability through its 4-inch thickness and high-quality construction, enabling healthcare professionals to deliver consistent patient care with confidence.
