Ritter Midmark M11 Steam Sterilizer – Refurbished

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

The M11 is one of the world's best-selling tabletop automatic autoclaves. It features an 11-inch diameter chamber with automatic venting.

In addition, its 6.5-gallon usable chamber volume gives it one of the largest capacities of any standard countertop sterilizer on the market. This M11 also uses pre-set cycles and smart drying to keep things simple and steady.

Meanwhile, its automatic door opener handles venting on its own, so staff have fewer steps to do by hand. This unit is fully refurbished and checked by a biomedical team before it ships, and it comes with trays included.
