

# SchureMed 3" H Deluxe Stretcher Pads

## FACTORY NEW

SchureMed Deluxe 3" H Stretcher Pads feature a waterfall design with no top-edge seams for enhanced infection control. All pads have four rounded and contoured corners to fit most stretchers and are constructed with open-cell, high-density foam covered with an anti-microbial surface.

These stretcher pads are suitable for use in PACU, Endoscopy, Ambulatory/Same Day/Outpatient Surgery, Operating Room, Extended Stay, and Emergency Room applications. The deluxe pads are available in multiple lengths and thicknesses to accommodate stretchers from most manufacturers.

The anti-microbial cover and seamless design make these pads ideal for healthcare environments where infection control and patient comfort are priorities.
