

SchureMed Bariatric Foot Extension | 800-0326

Stock Photo - Options May Vary

FACTORY NEW

The SchureMed Bariatric Foot Extension is a versatile operating room accessory designed to enhance surgical patient positioning. It functions both as a horizontal table extension and as vertical foot support for reverse Trendelenburg positions, providing flexibility for various surgical procedures.

The extension features a 2-inch thick deluxe pad for patient comfort and is completely radiolucent, allowing for unobstructed imaging during surgery. Its design accommodates bariatric patients while maintaining compatibility with standard operating room setups.

The unit is compatible with all O.R. tables and requires two Simple Clamps for secure attachment, which are sold separately.

FEATURES

- It can be used horizontally as a table extension
- It can also be used vertically as foot support for reverse Trendelenburg positions
- A Deluxe Pad Included
- Fits all O.R. tables
- Completely radiolucent
- Note: Requires 2 Simple Clamps; sold separately. See Options

SPECIFICATIONS

- Pad Included: 2" thick
- Completely radiolucent
- Dimensions: 36"W x 15"L
