

SchureMed Deluxe 2"H Stretcher Pads

Stock Photo - Options May Vary

FACTORY NEW

SchureMed Deluxe 2"H Stretcher Pad features a waterfall design with no top-edge seams for enhanced infection control. The pad includes four rounded and contoured corners to fit most standard stretchers across various clinical settings.

The stretcher pad is constructed with open-cell, high-density foam and an anti-microbial cover to support infection prevention protocols. It is suitable for use in PACU, Endoscopy, Ambulatory/Same Day/Outpatient Surgery, Operating Room, Extended Stay, and Emergency Room applications.

Available in multiple lengths and thicknesses, the pad is designed to fit stretchers from most manufacturers. A 3"H version is also available for facilities requiring additional cushioning.

**Brochure and images are a general overview of the product. Actual product options may vary.*
