

SchureMed Narrow Head Rest Optional Wrist Rest | 800-0086

Stock Photo - Options May Vary

FACTORY NEW

The SchureMed Optional Wrist Rest is designed to enhance patient comfort and positioning during surgical procedures. It adjusts vertically up to 14 inches with an inside diameter width that ranges from 5 to 11 inches, providing a customizable fit for various patient needs.

This wrist rest offers enhanced stability and support for the wrists during prolonged procedures, reducing patient fatigue and improving surgical access. The design facilitates ease of positioning for the surgical team.

The wrist rest is compatible with the SchureMed Narrow Head Rest and requires the SchureMed One Simple Clamp (sold separately) for secure attachment and proper functionality.
