

SchureMed Oasis Elite Prone Lateral Positioning System | 804-0043

Stock Photo - Options May Vary

FACTORY NEW

The SchureMed Oasis Elite Prone Lateral Positioning System is designed for operating room use during surgical procedures requiring prone and lateral patient positioning. Developed through extensive research into the needs of both surgical staff and patients, this system provides comprehensive pressure-relieving protection and effective positioning in a single solution.

The system includes a base plate and six pads that work together to distribute pressure evenly across the patient, reducing the risk of injury and discomfort during extended procedures. This design facilitates easier access for surgical staff while maintaining optimal patient safety and comfort.

The versatile positioning system is suitable for a wide range of surgical procedures, helping to enhance both operational efficiency and patient outcomes.
