

SchureMed Softcare Stretcher Pads

Stock Photo - Options May Vary

FACTORY NEW

SchureMed Softcare Stretcher Pads feature a waterfall design with no top-edge seams to enhance infection control. All pads have four rounded and contoured corners to fit most stretchers. The multi-layer foam construction includes an anti-microbial cover for added protection.

These stretcher pads are suitable for a wide range of clinical applications including PACU, Endoscopy, Ambulatory Surgery, Operating Room, Extended Stay, and Emergency Room settings. The anti-microbial cover helps maintain a hygienic patient surface.

Softcare Stretcher Pads are available in multiple lengths and thicknesses to accommodate most manufacturers' stretchers, ensuring compatibility across different equipment configurations.
