

# Steris 4085/CMax Surgical Table Hand Control - New

Stock Photo - Options May Vary

## FACTORY NEW

The Steris 4085/CMax Surgical Table Hand Control is a factory OEM replacement designed for 4085, 5085, 5085 Harmony, and CMax surgical tables (Gen. 1 North America models). The attached cord provides consistent connectivity during procedures, delivering precise control and responsive operation to support efficient workflows in demanding surgical environments.

The integrated LCD window displays clear positioning feedback for accurate table adjustments. The intuitive interface allows staff to operate functions quickly and confidently. The built-in Auto Limit Sensor actively prevents collisions, improving safety during use and reducing risk while protecting both equipment and patients.

This hand control offers durable construction that meets strict OEM specifications for consistent quality and long-term use. The compact design supports easy handling and storage, and it comes with a 90-day warranty for added assurance.
