Stryker Temporal Wrist Rest – Refurbished Model | 1068-251

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

Stryker Temporal Wrist Rest – Refurbished (Model 1068-251). Designed specifically for ophthalmic, head, and neck surgeries, the Stryker Temporal Wrist Rest inserts easily into the head section of most Stryker eye, head, and neck surgery stretchers.

Additionally, it delivers optimal support and precise positioning, enhancing both patient comfort and surgical efficiency. Furthermore, this refurbished model offers a budget-friendly option without cutting corners on quality, giving surgical teams lasting durability.

Moreover, by keeping the wrist properly aligned during procedures, it helps ease strain and supports better surgical outcomes.

FEATURES

- Inserts into Head Section for Stable Support
- Maintains Proper Wrist Alignment
- Refurbished for Durability and Reliability
- Lightweight, Easy to Attach or Remove

SPECIFICATIONS

- Model Number: 1068-251
- Compatibility: Most Stryker Eye, Head, and Neck Surgery Stretchers
