

Stryker Temporal Wrist Rest – Refurbished Model | 1068-251

Stock Photo – Options May Vary

FULLY REFURBISHED · CLINICALLY CERTIFIED

The Stryker Temporal Wrist Rest is designed specifically for ophthalmic, head, and neck surgeries. It inserts easily into the head section of most Stryker eye, head, and neck surgery stretchers to deliver optimal support and precise positioning.

The device enhances both patient comfort and surgical efficiency by maintaining proper wrist alignment during procedures. This helps reduce strain on the patient and supports better surgical outcomes.

This refurbished model (1068-251) provides a cost-effective solution without sacrificing quality, ensuring long-lasting durability and dependability for surgical teams.
