Tuttnauer DS1G Steam Distiller

Stock Photo – Options May Vary

FACTORY NEW

Tuttnauer DS1G Steam Distiller. The Tuttnauer DS1G Steam Distiller is the ideal solution for producing ultra-pure distilled water quickly and effortlessly. Additionally, the DS1G is easy to use and reliable, ideal for clinics, labs, or anyone needing high-quality distilled water.

Using a durable stainless-steel boiler, the DS1G transforms ordinary tap water into clean, contaminant-free distilled water through efficient steam distillation. Just fill the boiler, place the cover, and press the button.

In hours, you'll have clean, purified water ready. Moreover, the DS1G effectively removes bacteria, viruses, cysts, and other impurities through high-temperature boiling and condensation.
