Tuttnauer 2540MK Manual Kwiklave

Stock Photo – Options May Vary

FACTORY NEW

Tuttnauer 2540MK Manual Kwiklave – New. This sterilizer offers all the proven, trusted features of a manual autoclave, with the added plus of a shorter heat-up time. In addition, it's a strong choice for fast instrument prep or a busy office.

Speed and reliability come without giving up load size. This autoclave turns off on its own after each cycle. Meanwhile, a double safety lock keeps the door shut while the chamber is under pressure.

A dual thermostat also helps stop it from getting too hot. Note: This model needs 220V to 235V power, and you may need a buck/boost transformer (0.5kVA).

FEATURES

- Automatic Shut Off at the End of Both the Sterilization and Dry Cycles
- A Long Life Electro Polished Chamber and Door
- Double Safety Locking Device Prevents Door from Opening while the Chamber is Pressurized
- Drain Valve is Located on the Front, Allowing for Quick and Easy Draining of the Water Reservoir
- Dual Safety Thermostat to Protect Against Overheating

SPECIFICATIONS

- Chamber Dimensions: 10" x 19"
- Chamber Volume: 6 Gallons
- Overall Dimensions: 21.5"D x 20"W x 14.4"H
- Standard Cassettes Capacity: 3 Full and 3 Half
- Tray Dimensions: 16.3"D x 6.7"W x 0.8"H
