Tuttnauer Autoclave 3870EAP Fully Automatic

Stock Photo – Options May Vary

FACTORY NEW

Tuttnauer 3870EAP Fully Automatic Autoclave – New. This is Tuttnauer's largest tabletop autoclave, built for high-volume sterilization. It uses a closed-door active drying system, which keeps instruments sterile and dries packs and pouches efficiently.

In addition, the 3870EAP includes an internal printer, making it a strong fit for multi-doctor practices, surgery centers, and busy clinics. The 15″ x 30″ chamber holds longer tools or large batches of smaller ones, fitting up to 15 full-size IMS cassettes at once. Meanwhile, this fully automatic system handles sterilization from start to finish, saving staff time.

It also offers custom cycles, so clinics can adjust settings to fit their needs.

FEATURES

- Closed-door active drying system to maintain sterility and ensure efficient drying of packs and pouches
- Hepa filter 0.2 µm air filter (replaceable)
- Rapid cycles optimize the availability of ready-to-use sterile instruments
