

UMF Large Instrument/Storage and Supply Cabinet | 7142

Stock Photo - Options May Vary

FACTORY NEW

The UMF 7142 Large Instrument/Storage and Supply Cabinet is a durable medical storage solution featuring two lockable upper doors with glass panes and a lower section with double doors and double drawers. The upper section includes three adjustable glass shelves and one removable non-adjustable metal shelf in the lower section.

The cabinet is equipped with a 110V light in the upper section that automatically illuminates when the door opens (220V option available). Heavy-duty construction and concealed hinges ensure reliable performance in demanding healthcare environments.

Built with 20 gauge steel and manufactured in the USA, the cabinet includes a three-year limited warranty and is available in 12 accent colors to match facility décor.
