# Champion T4 Procedure Chair

*Stock Photo – Options May Vary*

**FACTORY NEW**

Champion T4 Multi-Purpose Procedure Chair. The Champion T4 Multi-Purpose Procedure Chair functions as a chair, stretcher, and exam table. It supports a wide range of procedures, from minor surgeries to emergency wound care.

Furthermore, you can adjust the height and backrest instantly with the push-button pendant. Consequently, your staff saves time while maintaining precise control during critical tasks. Patient safety remains the highest priority of the T4 Procedure Chair, with a 500-pound weight capacity.

The triple column base ensures a rock-solid foundation for every patient. Additionally, the swing and tuck side rails allow for easy lateral transfers.

## FEATURES

• Radiolucent Back: Allows for clear X-ray and imaging results while the patient remains seated.
• Swing & Tuck Side Rails: Provides unobstructed access for patient transfers and clinical procedures.
• Triple Column Base: Offers superior stability and a broad height range for ergonomic working positions.
• Central-Locking Brakes: Engages all wheels with one pedal to ensure a secure, stationary platform.
• Push-Button Pendant: Gives caregivers easy electronic control over all chair movements and positions.

## SPECIFICATIONS

• Weight Capacity: 500 lbs. (226.8 kg)
• Seat Height Range: 23.5" to 43.5" (Standard Models)
• Seat Width: 24" (T4-B, T4-XB, T4-LB) or 28" (T4-WB)
