Champion Privess™ Basic Privacy Screen

Stock Photo – Options May Vary

FACTORY NEW

The Champion Privess Basic Privacy Screen is a 3-Panel divider that offers a reliable way to protect patient dignity in any medical setting. In addition, it works perfectly for patient examinations, dressing changes, or creating temporary treatment bays. Furthermore, you can deploy this barrier instantly to manage your floor space effectively.

Consequently, your facility remains organized and respectful of personal privacy. The clever design of the Champion Privess Basic includes both swivel casters and stationary crutch tips. Use the smooth-rolling wheels to move the unit between different exam rooms.

Alternatively, install the crutch tips to keep the screen firmly in one place.

FEATURES

• Dual-Base Design: Includes both swivel casters for mobility and crutch tips for stationary stability
• Powder-Coated Steel Frame: Provides a robust and durable skeleton that resists the wear of high-traffic areas
• Triple-Panel Coverage: Offers a wide 79-inch span to effectively block sightlines in large wards
• Hinged Flexibility: Allows you to angle the panels to fit around equipment or furniture
• Sanitary Surfaces: Features easy-to-clean vinyl that stands up to frequent chemical disinfecting

SPECIFICATIONS

• Overall Width (Fully Extended): 79" (200.7 cm)
• Overall Height (With Casters): 70" (177.8 cm)
• Individual Panel Width: 27" (68.6 cm)
• Individual Panel Length: 49" (124.5 cm)
• Base Dimensions: 27" Width x 20" Depth
