Winco Recliner Optional Heat | HT

Stock Photo – Options May Vary

FACTORY NEW

Winco Recliner Optional Heat: HT. One of the more common complaints among patients in dialysis clinics is that they can't seem to get warm, or if they do manage to get warm, they don't stay that way for long.

Winco is proud to offer the Heat option on most of our clinical chairs. Two separate pads gently warm the seat and back chairs, creating a more comfortable environment for your patient.

It's so easy…and it's Safe! Winco's Heat Option is very simple to operate.

Brochure and images are a general overview of the product. Actual product options may vary.
