

# Skytron 6701 Hercules Surgical Table - Refurbished

Stock Photo - Options May Vary

## FULLY REFURBISHED · CLINICALLY CERTIFIED

The Skytron 6701 Hercules Surgical Table is a versatile operating table with a 1,200 lb. weight capacity, supporting bariatric and general surgery patients while maintaining stability and precision. It features a 23" low height adjustment for improved access and ergonomics, along with a 210° tabletop rotation that enables full-body imaging without patient repositioning, streamlining workflow and supporting advanced imaging tools like C-arms.

The table includes a Self-Leveling Brake Safety System to keep the table securely locked during use and North American side rails that enhance compatibility with most surgical accessories. A durable back-lit, one-touch hand control allows adjustment of elevation, anatomically correct return to level, beach chair position, leg section, lateral tilt, Trendelenburg, reverse Trendelenburg, backrest, flex, and reflex positions.

The table is suitable for plastic surgery, orthopedics, general surgery, and many other procedures. It comes completely refurbished with new pads and is ready for immediate use in any surgical setting.
