The Baxter AS50 syringe pump is a compact unit that features a built-in, configurable drug library, syringe plunger detection, a backlit display, adjustable occlusion specialties and selectable modes of drug delivery.

The AS50 also features rubber end bumpers to help prevent damage from accidental drops. Additionally, the syringe pump can be mounted directly to a standard IV pole with the included IV pole mounting bracket.

Included with the unit: New Battery, IV Pole Clamp, Charger and Operators Manual

The Baxter AS50 comes completely refurbished with a comprehensive warranty.
