The Valleylab Force 2 Electrosurgical Unit (ESU) is a powerful multipurpose ESU that is suitable for a wide range of procedures.

Features include: 3 Preset Blend Modes and Enhanced Safety with the REM Return Electrode Monitoring System. The REM system is vital in helping to prevent electrode burns.

This unit also features 300 watts of max cut power, 120 watts in coag, and 70 watts in bipolar. The easy to read digital display shows the settings and audible alarms alert the user to problems.

The ValleyLab Force 2 comes completely refurbished with a comprehensive warranty and includes a Monopolar Foot-switch, Powercord and Manual.
